

Green Matting

**Eco-friendly matting for
sustainable performance**

ULTRA Dry® PCR PET

EcoMod Matting Tile

Premier Image® Eco SQ

Recycled and recyclable.

Achieving your green goals is easy with sustainable solutions from Matting By Design. Ask us how our custom floor matting can improve your building's LEED rating.

ULTRA Dry® PCR PET

Made from 85% post-consumer recycled polyester

- **Eco-friendly** – Features 8 post-consumer plastic bottles per square foot
- **Fast drying** – Extra air circulation speeds drying time
- **High performance** – Traps dirt and moisture, keeping locations cleaner and safer, all while looking great

EcoMod Matting Tile

The industry's first fully sustainable, 100% PVC-free matting tile system

- **Eco-friendly** – Can be recycled into new tiles – without wasting a single ounce – when it reaches the end of its useful life
- **Superior performance** – 8X greater tear strength, 5X greater tensile strength, and 2X greater delamination strength compared to traditional PVC tiles
- **Superior durability** – Lifetime commercial warranty against edge ravel, zippering, delamination and moisture degradation

Premier Image® Eco SQ

Made with 100% recyclable premium-branded nylon

- **Eco-friendly** – Cradle-to-cradle certified, so it can be recycled again and again
- **Efficient** – Requires 18% less energy to make than traditional nylon
- **Excellent performance** – Offers one of the largest denier per filament (DPF) in the industry and the strongest tensile strength
