

MATTING BY DESIGN Corporate Capabilities Statement

Matting By Design is the largest manufacturer of custom and designer commercial floor matting in the United States. We sell direct to the end user, not through distributors, and take a great deal of pride in our products and service.

Quality construction - All of our mats are proudly 100% Made in the USA by artisans who take pride in their midwest work ethic, and use only 100% Made in the USA raw materials.

Performance like no other - Independent tests show that our mats outperform the competitors when it comes to construction, heavy-duty fibers, and maximum absorption.

Warranty for peace of mind - Gain complete confidence with a full-replacement warranty when you maintain your mats as recommended by Matting By Design.

Service before, during, and after the sale - You'll get attentive and personal service throughout the entire experience - from design to manufacturing to installation and beyond.

Beauty beyond belief - Mats are designed to meet your space's demands, decor, and then handcrafted with the finest raw materials for lasting beauty. Available in over 40 designer colors and unlimited sizes and shapes.

Full range of products - Mats run the gamut from premium matting for image-enhancing elegance to tough matting for high-volume traffic to eco-friendly matting for sustainable performance.
